Q673 opinion on European Union

Q.673

<Show card RR>

There is much talk about what the individual member states of the European Community Union have in common and what makes each one distinct.

<Interviewer presents illustration with responses and scale from 1 to 7>

A: Some people say: If the European member states were truly to be united, this would mean the end of their national, historical and cultural identities. Their national economic interests would also be sacrificed.

B: Others say: Only a truly united Europe can protect its states' national, historical and cultural identities and their national economic interests from the challenges of the superpowers.

Which opinion is closest to your own opinion, the first one or the second one? Please use the scale listed. 1 would mean that you agree completely with A and 7 would mean that you agree completely with B. The numbers in between allow you to show which of the opinions you tend to agree with, whether you tend to agree more with the one or with the other.
