VAR597 - % OF PEOPLE SPEAKING ENG. AT HOME LOCATION: 15:3-6

Note: This percentage, calculated to one decimal place, is based on 1981 Census of Canada estimates for each constituency. These estimates, based on a 20 per cent sample of the population, and rounded to the nearest 5 people, systematically underestimate the population values by an average of about 2 per cent. Because of this, the sum of VAR597, VAR598, and VAR599 will tend to be slightly less than 100 per cent. Note also that VAR597, VAR598 and VAR599 refer to "Language Spoken at Home", not "Mother Tongue".
